

# NASA Lies

## Bubbles in Space

NASA trains its astronauts in a pool...coincidentally in many NASA space walks bubbles are visible moving through space. DRAIN THE POOL NASA!

## NASA's CGI Blunders

NASA has been caught time and time again faking space. From stop motion animation - to blue/green screen - to bad photoshop - to countless CGI planets and images.

## NASA's Budget 52 Million a day

All we get is CGI and not one real photograph

NASA is really bad at faking it. All we have to do is be willing to investigate and admit when we have been conned.

"NOBODY IN HUMAN HISTORY, AS FAR AS I KNOW, HAS THOUGHT THE WORLD WAS FLAT."

- Brian Cox

Except every single culture and religion prior to NASA

# TOP 10 FLAT EARTH PROOFS

## 1. Water is a NATURAL level

No curvature is ever detected over bodies of water. All liquids when undisturbed are flawlessly flat.

## 2. Airplane level flights

The FAA assumes flat earth when training pilots using their Target Generation Facility. An airplane traveling 500mph would have to compensate for a drop of 2,777 ft. every minute to maintain cruising altitude and not fly off into space.

## 3. SCIENCE Says its Stationary

Every scientific experiment has proven Earth is completely stationary. The sun, moon, and stars move around polar center above us.

### Research

- North Star
- Airy's Failure
- Michelson-Morley
- Sagnac Experiment

## 4. Horizon is always eye level

Not only is the horizon always flat but it rises to eye level. High Altitude amateur balloon footage without a fish-eye or GoPro lens always shows a flat earth.

Amateur Balloon Footage

## 5. We see too far

This footage of the Ecrins mountains taken in January of 2015 holds the Current World Record, Long Distance Landscape Photography – 275 Miles or 443km. This should be 9.54777 miles below the horizon, OR 50,412 feet down the other side of the ball..

## 6. The DOME is real

There are lots of proofs we live under a dome. Sundogs, halos, rainbows and star-trails all prove this. You can not have a Vacuum resting next to a pressurized atmosphere without a sealed container or barrier. Even NASA admits they cannot longer leave low earth orbit. But they could in 1969?

## 7. Moonlight is a cold

A laser thermometer proves moonlight is colder than in the shadow. This fact indicates that the moon is NOT a reflector of the sun's light, but rather a light source in and of itself.

## 8. Crepuscular Sunrays

The sun is smaller than earth and very close. We can trace the angle of rays back to their source above the clouds. The sun is clearly not massive or 93,000,000 miles away, but small and relatively close.

## 9. Gravity is magic!

Newtonian & Einsteinian gravity are not even the same geometry. Neither gravitational theory has ever been proven. Gravity is easily explained by density and buoyancy. Things rise and fall based on their density and the medium with which they are traveling through.

## 10. Boats over the curve

It is a common misconception that boats disappear out of sight because of the curve of the earth. High powered cameras like the Nikon P900 have created a real problem for the curve...just zoom in.
